

Dover castle : Knight's fees owing castle-guard service at Dover :
Text -- version D

Fees which are owed for the guard of the castle of Dover

<The third list printed in the "Red Book", pp 706-12, is a copy of an account for the year 1261/62. Version D is not that account: it is my reconstruction of the updated list on which the account was based. I have stripped out all the financial details, which would vary from one account to the next, depending on how the rotas intersected with the period of time covered by the account. For the same reason, I have reset the order of the entries: an asterisk denotes the entry which comes first (or ought to come first) in this particular account.>
